호대 이 말씀

호남대학ubbo의 놀라운 축구팀을 이끌어낸 제 3회 국제비교마음학회 및 제 4회 국제바이오코스몰로지(Biocosmology)세미나를 열어주셔서 감사드립니다.

이번에 참여하신 여러분의 지식, 정신, 문명, 인류학 등 다양한 분야에서 이주의 이론과 실천, 발전, 과학적 근거와 창조성을 돕고자 하여, 이에 관해 진보하고자 합니다. 특히 최근에는 신체와 과학적 성장의 관계가 더욱 관련이 있는 체육학적 면모를 가지고 있습니다. 이러한 이론과 실천, 그리고 점점 보편화 되고 있는 체육학적 가치를 위한 하나의 기회를 제공하는 것이 필요하다고 생각합니다.

이번 바이오코스몰로지는 여러분의 다양한 이론과 실천, 그리고 보편학의 관계와 동일한 체육학적 가치를 위한 하나의 기회를 제공하는 것이 필요하다고 생각합니다.

바이오코스몰로지와 인간 발달

It is a great pleasure to announce the opening of the 4th International Seminar on Biocosmology and the 3rd International Conference on Comparative Studies of Mind (ICCSM).

This year, the seminar and the conference are held at Chung-Ang University, Seoul, Korea. This meeting is conducted by the Biocosmological Association, the Society of Mind Studies, and Chung-Ang University. The theme of the conference is “Biocosmology and the Individual Development.”

We treat Biocosmology as a form of neo-Aristotelism, thus recognizing Bio-universality for all the levels of the organization of life: biological, ecological, anthropological, socio-cultural, and global evolutionary or cosmic levels. The Biocosmology supports the genuine idea about the original symmetry between the whole Universe and each living subject. The Biocosmological Association was established in 2010 in Veliky Novgorod (Russia) and The Asian Centre for Biocosmology(Asian-Artem) and Mind Studies is opening with the 2012 Seminar at Chung-Ang University, Seoul.

Many research results on mind will be presented at the Conference and diverse points of view and approaches will be exchanged. The research on “Mind” is ongoing subject in such fields: philosophy, psychology, literature, anthropology and humanities at the same time natural sciences and engineering, i.e. medicine, neuroscience, artificial intelligence and biology are insuring the Mind in various ways. Furthermore, the recent Biology and neuro-scientific approaches made great leaps and brought outstanding arguments and discourses, in this conference, we have the chance to see the panoramic views of Asian and Russian concepts of Mind.

All the articles are contributed by 36 scholars from 16 countries including Australia, Canada, China, Estonia, Hong Kong, India, Iran, Japan, Korea, Malaysia, New Zealand, Russia, Taiwan, Tajikistan, and U.S.A. It will be a great forum, where different understandings and viewpoints on the human mind and Biocosmology are exchanged.

We hope each and every of you enjoy this fruitful opportunity for academic achievements. Thank you.
The program

**Friday, December 14th, 2012**

Opening Session: General issues about Biocosmology, Mind Studies and the Individual Development  
Chairs: Ho young Lee, Song Hean Choi

08:45 Welcome Address: Kwon Jong Yoo  
09:00 Kwon Jong Yoo (Kook Shin Ahn, President of Chung-Ang University)  
09:45 Welcome Address: Kwon Jong Yoo (Kook Shin Ahn, President of Chung-Ang University)  
09:09 Konstantin S. Khroutski (Novosibirsk, Russia; Institute of Cytology and Genetics of Russian Academy of Sciences)  
09:45 Reception: Kolosov

11:10 Break

11:30 Nargis Nurulla-Khodzhaeva (Tajikistan; Moscow State University)  
12:00 Remains of Academic Mind in the Tradition of Indian Philosophy  
12:30 Lunch

**Session 2: Aristotelian 'techne, phronesis and episteme' in modern (Biocosmological) forms**  
Chairs: Chulsup Umajavan, Joo Man Maeng

14:00 Vassily V. Karpov (Veliky Novgorod, Russia; Veliky Novgorod State University)  
14:45 Tanja Bystrova (Kiev, Ukraine; University of Kiev)  
15:10 Kader Giro (Tahran, Iran; Iran University of Medical Sciences)  
15:30 Stephen Palmquist (Hong Kong Baptist University)  
16:00 Break

**Session 3: Biocosmological issues of Self and Personal Development**  
Chair: Nargis Nurulla-Khodzhaeva, Chongsuk Cho

16:30 Young Jin Kim (Seoul, Korea; Sungkonghoe University)  
17:00 Young Jin Kim (Seoul, Korea; Sungkonghoe University)  
17:30 Chungsik Park (Chung-Ang University, Korea)  
18:00 The day's Summary: Organizational Issues of the BCA, Launching of The Asian Centre for Biocosmology (neo-Aristotelianism) and Mind Studies  
18:30 Dinner

**Saturday, December 15th, 2012**

Session 4: Asian and Russian resources and perspectives in Biocosmology, Mind Studies and the Individual Development  
Chair: S. Panneerselvam, Chungsik Park

09:30 Lin Chen (Shanghai, China; National University of Singapore)  
10:30 Lin Chen (Shanghai, China; National University of Singapore)  
11:30 Young Jin Kim (Seoul, Korea; Sungkonghoe University)  
12:00 Break

**Session 5: Asian and Russian resources and perspectives on Biocosmology, Mind Studies and the Individual Development**  
Chair: Stephen Palmquist, Kyungho Kim

13:30 Young Jin Kim (Seoul, Korea; Sungkonghoe University)  
14:00 Jae Dong Ryu (Seoul, Korea; Sungkonghoe University)  
14:30 Adam J. Malecki, N/A  
15:00 Young Jin Kim (Seoul, Korea; Sungkonghoe University)  
15:30 Break

Online Session 6, room 1: Biocosmological issues of the Individual development in modern humanities and formal sciences  
Chair: Konstantin S. Khroutski, Myung Han Lee

16:00 Sergey A. Zhirchenko (Minsk, Belarus; Institute of Informatics Problems of Russian Academy of Sciences)  
16:40 Elena Kazakova and Evgeny Benderskaya (Veliky Novgorod, Russia; Veliky Novgorod State University)  
17:00 Vladimir V. Drozdov, Roman E. Zinchenko (Penza, Russia; Penza State Pedagogical University)  
17:20 Kari L. Churvik (Saint-Petersburg, Russia; Biocosmological Association)  
18:00 Break

Online Session 6, room 2: Biocosmological issues of the Individual development in modern natural and social sciences  
Chair: Michael Joth Raj, Jong Kyun Lee

19:00 Arthur J. Sanoff (Auckland, Australia; University of Auckland)  
20:00 David M. Worlock (Christchurch, New Zealand; UNESCO, Bangkok, Thailand)  
21:00 Leonid P. Churvik (Saint-Petersburg, Russia; Saint-Petersburg State University)  
22:00 Kajo-Lajima (Kumamoto, Japan; Kumamoto University)  
22:30 Sujit Kamath (Bangalore, India; Indian Institute of Science)  
23:00 Myung Han Lee (Seoul, Korea; Sungkonghoe University)  
23:30 Break
